

Interviewing Skills to Recruit the Right Candidate 篩選出關鍵人才的面試技巧

MEDIUM : English / Cantonese / Putonghua COURSE CODE : ISRRC

In a job interview, the manager predicts the successful performance of a candidate in specific jobs for hiring decisions. How to predict with the highest certainty? Customising the formulas to assess education, experience, skills and personality desired for job specific behaviours is a key. The manager also evaluates the success for the company to engage and retain talents by ensuring the alignment of the candidate's motivation with the company's core values.

The workshop enables the participants to master a result-focused process to select the right candidate that best suits the competency-based requirements. The participants will gain confidence to master the following interviewing techniques:

- Define a systematic interview process
- Plan with the end business results in mind based on job functions
- Assert role and optimise the effect of panel interviews
- Set evaluation criteria with weightage on ideal performance areas
- Design questions to validate education, experience, skills and personality
- Learn listening and probing techniques to deepen analysis
- Engage candidates in a smooth communication flow
- Communicate a professional company and personal image
- Evaluate the candidates effectively using an assessment guide

Who Should Attend Middle Management

Methodology

The workshop can be customised by the trainer to suit the development needs of the participants. The trainer conducts interviewing skills both for employers and for candidates. Her extensive experience enables her to enrich the depth of the training activities and illustrations.

Pre-Training Phase

The trainer will collect case examples of interview types and competency-based behaviours descriptions for workshop design.

Training

The training is highly interactive with the following activities:

Lectures, exercise, role-play (video-recorded) for review and coaching, feedback checklist, assessment guide for candidates
