

The leadership landscape is littered with many fads and populist sayings of how one should “lead” in a hyper-fast, highly interconnected world where social media reigns supreme in real-time.

This training program is geared towards making participants THINK, REFLECT, ENGAGE their intellect as well as emotions on the elusive topic of leadership. The program facilitator will provide essential reading materials as well as share wide ranging related experiences that will help participants improve their leadership capabilities.

## Objectives

1. Appreciate the context and underlying forces that influence leadership capabilities
2. Widen knowledge on the expectations of leadership
3. Explore Leadership Models and their Impact on Organisations and Societies
4. Garner relevant experiences and insights to deepen one's leadership profile and brand
